2025 SAANEN SALES LIST

Welcome to Pleasant Grove Dairy Goats. Located in east central Iowa, I've been breeding American Saanens since 1988. While I enjoy showing the does, the main focus has been and continues to be the commercial dairy I have operated since 1988. Our milk is shipped to the Saputo cheese plant in Belmont, WI. I had maintained a herd size of about 140 milking does for over 20 years, split between Purebred Alpines and American Saanens. My breeding philosophy focuses on three main areas: milk production, udders, and legs. Being a commercial dairy, I want my does to milk well and for many lactations. 2017 brought a big change to our operation with the loss of our lease. Fortunately, our neighbors stepped up and offered us the chance to partner with them. We now have a combined milking herd of 300 head of Registered Alpines and Saanens, all CAE test negative. We are finally back on DHIA test in 2021.

As I mentioned earlier, I enjoy showing the does. Thanks to my family, I am usually able to attend about 6 shows (with 10-12 sanctioned rings) yearly. I attend nearly every National Show, and have enjoyed considerable success. Some examples include: bred and exhibited the 2005 Nat'l Saanen Best Udder, the 2007 Nat'l Reserve Grand Champion Rec Grade (3 generations of Saanen Sires), and the 2011 and 2012 National Champion Rec Grade (75% Am Saanen), Premier Exhibitor in both 2010 and 2011, Reserve Premier Breeder in 2021 & 2022, Saanen Premier Sire in 2013, 2017, 2021 and 2022, bred/owned the 2016 Saanen Reserve National Champion, bred/own the 2021 Nat'l Best Udder Saanen and bred/owned the 2022 National Junior Champion Saanen. We have contributed to several Colorama and Spotlight Sales, and were honored to have the high selling Colorama doe in 2013.

We are a CAE negative herd via annual herd testing, and abscess free. Health is a priority, so kids are still raised on a CAE prevention program, being removed from dams at birth and given high quality colostrum replacer. They are raised on a custom mixed milk replacer and weaned at 8 to 10 weeks of age. They are offered a starter grain at 3 weeks of age, and receive a quality alfalfa/grass mix hay after weaning.

If you would like to purchase a kid, I require a \$100 deposit to reserve your choice, with the balance due upon notification that your kid has been born. Deposits are nonrefundable unless the kid of your choice is not born or not of saleable quality. Unless prior arrangements are made, kids should be picked up at the farm or shipped by 4 weeks of age. Buyer is responsible for shipping costs, including crate, health certificate, etc. Make checks payable to: **CRAIG KOOPMANN**.

Thank you for your interest in Pleasant Grove Dairy Goats. Hopefully you find something that you like in this brochure. If you have any questions, feel free to contact me at 563-599-1520, by email at ckoopmann@msn.com or Message me through our FaceBook page, [Pleasant Grove Dairy Goats](#).

DD: Pleasant Grove Foxy G-String VG88

From the same maternal line as our 2016 Reserve National Champion (Gondola's 3rd dam is a maternal sister), Gondola shows a lot of promise. It's too bad Covid stole her 2 year old show year, but she certainly paid her way in the parlor by peaking at 16 lbs and milking 3000# (barn records). Living up to that promise as a 3 year old, Gondola started off the year with a 3 ring sweep as GCH/BOB at the LaCrosse Interstate Showdown to become a pending permanent Champion. She followed that up with a 3rd/1st udder placing at the ADGA National show, then being named National Best Udder Saanen. All while working toward a 4000 lb lactation. 3rd/3rd udder 2022 National Show. Gondola has shown to be a model of consistency, placing 3rd at Nationals again in 2023. Gondola was milked through in 2024, but still managed to be GCH/BOB both times shown in 2024. Gondola is bred to Pegasus on 9-5-24

2. Pleasant-Grove Has Gorganzola AS2117706

SD: Talache's Haashrita

DS: +*B GCH Noble Springs Moscow Mule

D: CH Pleasant Grove NSMM Gondola EX92

DD: Pleasant Grove Game Gobble

As the first daughter of Gondola, Gorganzola showed tremendous potential as a yearling. She had the same depth and width of chest as her dam, but a distressed kidding and HUGE single buck left Gorganzola with little milk and gaining weight in 2021. Another single in 2022, in 2023, and in 2024 left her chubby and lacking the udder capacity to be shown. 5 straight kiddings with a single.... Maybe someday she'll have multiples and start milking up to her potential, as she has the frame and strength to do it. She has a beautifully attached udder, just lacks capacity due to always having singles. Gorganzola is bred to Palermo on 8-24-24

3. Pleasant-Grove HUS Genesis AS2239887
 LA 1-07 VG89 EEVV Born 1-29-22
 DHIA 1-00 305d 2470M 3.2% 78F 3.0% 73P

 SD: SGCH Talache's Hadar EX92

DS: +*B GCH Noble Springs Moscow Mule
 D: CH Pleasant Grove NSMM Gondola EX92
 DD: Pleasant Grove Game Gobble

Genesis is a daughter of our National Best Udder winning Gondola EX92. She was 4th place Sr. kid at the 2022 National Show. She was always a very long and tall doe, but I felt she was kind of gangly when she kidded as a yearling. A solid functional doe with a lot of good parts, but she needed time to mature into her large frame. So she stayed hidden in the barn. Appraisal came in August, I clipped her up for a picture, and to my surprise the maturity had started to come. Genesis appraised VG89 (the highest allowed for a yearling) with an E in shoulder assembly, front legs, back legs, and back. Genesis is bred to Palermo on 9-11-24

4. Pleasant-Grove Eryx Goodwill AS2316290
 Not Appraised Born 1-26-23
 DHIA 1-00 274d 2844M 2.9% 83F 3.0% 86P

 S: +*B Tempo Passa Eryx
 SD: SGCH Des Ruhigestelle Elendili EX92

DS: +*B GCH Noble Springs Moscow Mule
 D: CH Pleasant Grove NSMM Gondola EX92
 DD: Pleasant Grove Game Gobble

Goodwill is the latest pretty daughter of Gondola, sired by USDA *ELITE* buck, Tempo Passa Eryx. Goodwill was shown 4 times as a kid, placing 4x1st, 2xGCH, 1xBDIS, 1xRGCH. She freshened in with a beautifully attached udder – long smooth fore, wide arched rear, and near ideal teat placement. She had a slight knee injury that kept her from showing most of 2024, but she made her milking debut at the Iowa State Fair where she placed 3rd (behind herdmates) in a highly competitive class of milking yearlings. Excited to see this one mature and follow in her mother's footsteps. Goodwill is bred to Palermo on 9-17-24

5. Pleasant-Grove NSMM Gonfalon AS2159939
 LA 3-07 VG88 GEEE Born 1-25-20
 DHIA 1-00 305d 3763M 3.4% 125F 2.9% 111P

 SD: Noble Springs NME Alcoa
 DS: Pleasant Grove I Got Game
 D: Pleasant Grove Game Gobble VG86
 DD: Pleasant Grove Foxy G-String VG88

Gonfalon is a full sister to National Best Udder Gondola, and shows the same promise as a young doe that Gondola did. Already appraised with an 'E' mammary, Gonfalon shows greater bone length than Gondola and the same will to milk. She finished up her yearling record with over 3700 lbs of milk, pushed 4000 lbs as a 2 and 3 yr old, and has flown by 4000 lbs this year. Gonfalon is bred to Pegasus on 8-28-24

****Nat'l Show-2nd/2nd Udder 3 year old****

6. CH Pleasant-Grove NSMM Gloss AS2082549

 SD: Noble Springs NME Alcoa

DS: *B Cherrypines Bayou Cobra
 D: CH Pleasant Grove Cobra's Glow EX90
 DD: SGCH Pleasant-Grove Won by Grovling EX92
 Gloss was a fancy FF 2 year old with an amazing rear udder. Already one of the largest does in the herd, as an immature 2 year old, all Gloss needed was a little time to fill out and add some udder capacity. And fill out and grow up she did! Gloss was 1xGCH/BOB/BDIS/BUIS and 4xRGCH in 2021, stood 2nd/2nd udder in the 3 year old class at the 2021 National Show, and appraised EX91 while milking nearly 4000 pounds. She topped 4000 lbs as a 4 year old while finishing her permanent Championship with 2 GCH and 4 RGCH wins. She was on pace for another 4000 lb lactation, but come up just short due to a late kidding and being bred back early. Backed by 3 generations of EX dams, and a National RGCH granddam, Gloss is living up to her promise. Gloss was flushed via IVF in 2024, and we have several pregnancies by Pleasant Grove Blooming Scheme due in February. After the flush, Gloss was bred natural to Palermo on 10-6-24

7. CH Pleasant Grove Got Raggedy Ann AS2040303
 LA 2-07 VG89 VEVE 4-07 EX92 EEEE Born 1-26-19

 SD: CH Pleasant Grove Grand Granola EX91

DS: *B Noble Springs Tyrol Kaiser
 D: SGCH Jen-Mae-Ka Kids Rags to Riches EX92
 DD: GCH Jen-Mae-Ka Kids Zenyatta EX90
 We purchased Rags to Riches from our friends at Jen-Mae-Ka Kids, shortly after she placed 7th in the 3 year old class at the 2017 Nationals. She was added for the consistency of type and mammary quality, and her ability to shine in the parlor. Rags had peaked at 19 lbs/day on test, has a PTA of +90 Milk and +.33%BF. It didn't take long to decide that 2-Time National Premier Sire Pleasant-Grove The Won I Got would be an excellent cross. The AI resulted in a Herdsire (Reign), and Raggedy Ann. Raggedy shows a lot of promise, and looks a lot like her dam did as a young milker. Maturing nicely, Raggedy is working on her fourth consecutive 4000# lactation, has earned her CH status, was 3rd place 3 year old at the 2022 National Show, and was GCH/BOB/BUOB at the 2023 Iowa State Fair. Raggedy is bred to Palermo on 9-11-24

****Best Udder Saanen – 2019 Iowa State Fair****

8. CH Pleasant-Grove Got A Gazelle AS1810465
LA 3-05 EX90 VEEE Born 2-23-16
LA5-06 EX92 EEEE
DHIA 4-10 305d 4558M 3.5% 157F 3.1% 140P
5-10 300d 4160M 3.7% 153F 3.1% 130P

S: Pleasant Grove The Won I Got
SD: CH Pleasant Grove Grand Granola EX91

DS: Pleasant-Grove Valiant Skybox
D: CH Pleasant Grove Sky Gridlock VG88
DD: Pleasant Grove Grip Grinde

Gazelle is a complete doe, having the production to set her apart in the commercial herd, the correct type to last a long time, and the depth/strength/length of body and outstanding mammary system to compete in the show ring. She has completed back to back 4000 lb lactations, earned her permanent Champion status as a 2 year old, and was GCH/BOB/BUOB at the 2019 Iowa State Fair. She was again 1st place aged doe at the 2022 Iowa State Fair.

Gazelle was flushed via IVF in 2024. We have several pregnancies to Pleasant Grove Blooming Scheme, an Alpha S1 Casein 'A' carrier due in Mid-February.

9. CH Pleasant-Grove NSMM Gazillion AS2223645
Not Appraised Born 1-18-21
DHIA 1-00 305d 2420M 3.8% 91F 3.3% 80P
2-01 297d 3010M 3.8% 115F 3.2% 95P

SS: +*B Noble Springs WMV Dax
S: +*B GCH Noble Springs Moscow Mule
SD: Noble Springs NME Alcoa

DS: Pleasant-Grove The Won I Got
D: CH Pleasant Grove Got A Gazelle EX92
DD: Pleasant Grove Sky Gridlock VG88

Gazillion is a promising daughter of Gazelle. She has the size, length, and correctness to excel in the show ring while still looking like a yearling. Shown quite a bit in 2022, Gazillion was 9x1st in class including the Iowa State Fair. She was also 7th place milking yearling at the National Show. She has dealt with a minor hock injury since that has kept her out of the show ring. We think we have it corrected, and are hopeful of showing her again in 2025. Meanwhile, she has earned her keep in the parlor with consecutive 3000 lb lactations as a 2 and 3 year old.

Gazillion is bred to Palermo on 9-11-24

10. Pleasant-Grove Reign Griddy AS2381133
Not Appraised Born 1-22-21
DHIA 3-00 268d 3680M 3.5% 128F 2.8% 103P

SS: Pleasant Grove The Won I Got
S: Pleasant Grove Gotta Reign
SD: SGCH Jen-Mae-Ka Kids Rags to Riches EX92

DS: Pleasant-Grove Valiant Skybox
D: CH Pleasant Grove Sky Gridlock VG88
DD: Pleasant Grove Grip Grinde

Griddy is a maternal sister to Gazelle, and sired by Raggedy's littermate brother. They share a lot of similarities – depth/strength of chest, width throughout, openness of rib, and outstanding udders. Griddy has almost perfect rear leg set. Production really stepped up this year, as Griddy has topped 3700 lbs this year. Griddy has earned 2 legs toward CH status, winning 2xGCH and 4xRGCH in 2024. Griddy is bred to Ghosts on 8-27-24.

11. CH Pleasant Grove Has Greeted You AS2125115
LA 2-06 EX90 VEEE Born 2-26-19
DHIA 1-11 303d 4870M 3.7% 179F 3.0% 144P
2-11 290d 4345M 3.8% 167F 2.9% 124P
4-11 277d 3617M 3.7% 134F 2.8% 102P (INC)

SS: *B Hurricane-PM Alrik
S: Talache's Hassan
SD: Talache's Haashrita

DS: Pleasant Grove RainBeau Appear
D: Pleasant Grove Appear Greta
DD: Pleasant Grove Guard Grita

Greeted is a no nonsense type of doe that isn't noticed much in the barn, but demands notice when looking at DHI records or you pull her out of the pen individually. She is a large framed and powerful doe, with a smooth front end, angularity, and capacious well attached udder. She is now a permanent champion with back to back 4000+ lb records. Greeted finally made it to a National show in 2024, where she was 4th place 5/6 year old. Greeted is bred to Pegasus on 8-27-24.

12. Pleasant Grove NSMM Grandeur AS2224703
LA 2-06 VG86 VVEV Born 2-16-21
DHIA 2-11 285d 3235M 2.8% 92F 2.8% 89P

S: +*B GCH Noble Springs Moscow Mule
SD: Noble Springs NME Alcoa

DS: *B Tempo Passa Tiber Easton
D: Pleasant Grove East Grand Ave EX91
DD: Pleasant Grove Grandiose Alibi

Grandeur is rather immature at this point but possesses a lot of potential, and the beautiful udder we expect. She has a correct set to her legs, an open and well sprung rib, and smooth front end. Her udder is well attached, with a high rear, smooth fore, strong medial and ideal teat placement.

Grandeur is bred to Ghosts on 9-5-24

13. Pleasant Grove NSMM Grottoed AS2320236
LA 4-07 EX91 VEVE Born 1-22-19
DHI 4-00 298d 3321M 2.6% 88F 2.8% 93P
4-11 267d 3885M 2.7% 106F 2.6% 102P

SS: *B Noble-Springs WMV Dax
S: +*B GCH Noble Springs Moscow Mule
SD: Noble Springs NME Alcoa

DS: Pleasant Grove Max Sims
D: Pleasant Grove Sims Grotto VG88
DD: Pleasant Grove Gotta Grovel EX91

Grottoed is another heavy milking and typey Moscow Mule daughter. She is projected over 4000 lbs this lactation, after making 3300 lbs last year. She appraised EX91 in August 2023. Highlights of her appraisal were the excellent mammary system (most notably the 49 in fore udder), excellent rear leg set, and excellent Dairy Strength. Grottoed has exceptional length of body.

Grottoed is bred to Palermo on 8-29-24

14. Pleasant-Grove NMSS Swuuned AS2288602
LA 1-07 VG87 VEVV Born 1-27-22
DHIA 1-00 305d 2320M 3.7% 86F 3.1% 73P
2-00 279d 4020M 4.0% 161F 3.0% 119P (INC)

SS: +*B Noble Springs WMV Dax
S: +*B GCH Noble Springs Moscow Mule
SD: Noble Springs NME Alcoa

DS: Pleasant Grove Max Sims
D: Pleasant-Grove Sims Swuoned EX90
DD: CH Pleasant-Grove I Got Skillz EX90

Swuuned has tremendous width and strength up front while maintaining a sweeping angular rib. She is level over the top and stands on excellent legs. Typical of the Mule daughters, she has a beautifully long and smooth FU (the shadows in the picture distort it a bit). She made her show ring debut at the 2024 Iowa State Fair, placing 1st/1st udder in the 2 year old class. Productive and showy, Swuuned is projected to milk well over 4000 lbs.

Swuuned is bred to Palermo on 9-10-24

****Nat'l Show-2nd/3rd Udder yearling****

15. Pleasant-Grove Pal Sansa Stark AS22297714
Not Appraised Born 2-20-23

DS: +*B GCH Noble Springs Moscow Mule
D: Pleasant-Grove NSMM Simply VG88
DD: Pleasant Grove Striking Sample

Spellbound resembles her dam (2nd/2nd udder 2021 Nationals) so incredibly much, in both type and production. Check out this family production: Spell is headed over 4000 lbs this lactation, her dam has a 5000 lb lactation, and her paternal granddam has multiple 5000 lb lactations. Spellbound is bred to Palermo on 9-15-24

DS: Pleasant Grove I Got Game
 D: Pleasant Grove My Slather Game VG86
 DD: CH Pleasant Grove Cobra Slither EX92

Pictured as a 2 year old, Sleep has matured into a big powerful long bodied doe. She milks well from a very functional udder, with nice RU height and arch, and ideal teat placement. Sleep could use a bit more foreudder extension. We love the length and levelness of back, and look forward to developing some daughters in the future.

Sleep is bred to Ghosts on 8-30-24

23. Pleasant Grove Hus Not Shy AS2326069
 Not Appraised Born 2-19-22

Dam: CH Pleasant Grove I Gotta Be Shy EX91

DS: Pleasant Grove The Won I Got
 D: CH Pleasant Grove I Gotta Be Shy EX91
 DD: CH Pleasant Grove Cobra Slither EX92

Not Shy was our parting gift from Gotta Be Shy, the 1st/1st udder 5/6 year old at the 2018 National Show (and only her 2nd daughter ever). The next dam back is the 2012/2013 National Champion Rec Grade, so Not Shy has a lot to live up to. Unfortunately, she freshened in uneven and will likely never be shown. However, it is still a beautifully attached udder with height and width to the rear as well as a nice arch, strong medial and near ideal teat placement. Not Shy is long bodied and smoothly blended with an open and nicely angled rib. She is also showing strong production with consecutive records of 3000+ lbs. Having 2 fancy daughters this year, she will remain as a valued brood doe. Shy is bred to Pegasus on 9-1-24

DS: Pleasant-Grove Cobra Strike
 D: CH Pleasant-Grove Strike Sizzled EX90
 DD: Pleasant-Grove Max Sizzle EX90

Sazzle is a result of the rare unknown breeding we experience, and since there are 14 potential sires, we opted not to DNA test and just registered Sazzle as a Grade. Her quality shines through despite not knowing her sire – Sazzle was JrGCH Rec Grade in her debut show at the 2019 Iowa State Fair. And she freshened with a high quality udder that we just couldn't resist showing off. As a 2 year old at a quad ring show, she was 3x1st, 1x2nd, 3xGCH/BOB, 1xRGCH. Next stop, the '21 National Show, where she stood 2nd/3rd udder in a highly competitive class. Kids will be 75% Saanen. Due to a leg injury, Sazzle is now retired from showing but remains as a brood doe. Sazzle is bred to Pegasus on 8-29-24

25. CH Pleasant-Grove Say Sazita E2229865

DS: Unknown Sire
 D: CH Pleasant-Grove 14Option Sazzle VG89
 DD: CH Pleasant-Grove Strike Sizzled EX90

Sazita is a fancy young doe with a knockout udder. Not the tallest doe in the herd, she catches your eye because of her length of body, shape of mammary, height and width of rear udder, and length of fore udder. Not originally part of our National Show string, I couldn't resist the opportunity to show her off on the big stage and decided that Nationals would be her show ring debut. Exceeding my expectations, Sazita was 1st/1st udder Rec Grade milking yearling. She then followed that up with a 1st/1st udder and RGCH win at the Iowa State Fair. Not just a pretty picture, Sazita milked over 2700 lbs as a yearling, and went over 5300 lbs on an extended lactation. Fresh again at age 3, Sazita easily finished her permanent CH by going 3x1st and 3xGCH at the Illini Interstate Showdown in June. Sazita finished up the year by as 1st/1st udder 3 year old and GCH/BOB at Iowa State Fair. Sazita is bred to Pegasus on 8-31-24

26. Pleasant-Grove Pal Shazam AS2370945

 D: CH Pleasant-Grove HUS Shizzle
 DD: CH Pleasant-Grove 14Option Sazzle VG89

Shazam is a 1st generation American Saanen whose dam, Shizzle, is a maternal sister to Sazita. Shizzle was 4th place milking yearling Recorded Grade at the 2023 National Show, and passed her quality on to her daughter. Shazam was shown sparingly this summer, placing 2x1st, 1x2nd in club shows. She was then a last minute substitute for the National show, where she made a strong impression by placing 5th in the milking yearling class. Dairy and stylish, with a beautiful rear udder. Shazam is bred to Palermo on 9-18-24

DS: Pleasant Grove Foxy Gigolo
 D: Pleasant Grove Gigolo Sitcom VG88
 DD: Pleasant-Grove Attack Skyliner EX92

Sitdown often gets lost among the Mule daughters, especially of the same age. But she needs a little recognition of her own, with strong rear legs, a beautiful mammary system (36 FU, 44 RUH, 43 RUA, 23 teat placement), and a strong level topline. We finally got her in the showing in 2022, and she did not disappoint though she did seem to perfect the bridesmaid title.... 7xshown, 6x1st, 5xRGCH (all to herdmates), 1x2nd (to the GCH/BUIS). Sitdown finally got over the bridesmaid hump in 2023 with 10xShown, 10x1st, 4xGCH, 4xRGCH, and 2xBDIS. Sitdown is bred to Palermo on 9-20-24

 D: Pleasant-Grove NSMM Sitdown EX90
 DD: Pleasant Grove Gigolo Sitcom VG88

Stack has been an eyecatcher from the beginning, winning JrGCH both times shown in 2022, including the Iowa State Fair. She freshened with a beautiful udder, continuing her winning ways with 6x1st, 1x3rd and 1xRGCH as a milking yearling. She possesses a lot of strength and depth, excellent rear legs, smooth top line and excellent rump to go with her outstanding mammary system which led to her winning 3x1st, 2xGCH/BOB, 1xRGCH to finish her Permanent CH in early 2024. At the National Show, Stack placed 6th in a very deep class of Saanen 2 year olds. Stack is bred to Palermo on 10-20-24

30. Pleasant-Grove Surreal Pal AS2396955

 SD: GCH God's Grace COI Corato 3*M EX91

 DS: *B Talache's Husani
 D: Pleasant-Grove HUS Surreal
 DD: Pleasant-Grove NSMM Survival VG89

Surreal is another eye catching yearling that has us excited about Palermo. She freshened with the outstanding udder I expect from this dam line – long smooth FU, high RU, strong medial and near ideal teat placement. She is correct in her front end, strong on all four legs, angular and open throughout – she just needs some 'body', but that will come with age. 1st place in her only show. Surreal is bred to Pegasus on 8-28-24

****Nat'l Show-3rd/2nd Udder 2 year old****

 S: Talache's Hassan
 SD: Talache's Haashrita

DS: +*B GCH Noble Springs Moscow Mule
 D: Pleasant-Grove NSMM Oy Vey EX90
 DD: Pleasant-Grove Olive Oil Alibi EX91

Ophelia has the best udder of all the 2020 yearlings; long smooth fore udder, globular in shape, high wide rear udder with a strong medial and ideal teat placement. She couples the outstanding mammary with an eye-appealing dairy and angular frame. Coming into her own as a 2 year old, Ophelia consistently was 1st or 2nd in her class this year, picking up 4 RGCH wins along the way (and 1 leg toward her championship). She was also 3rd/2nd udder two year old at the 2021 National Show. Picking up where she left off, Ophelia was 5x1st, 2xGCH, 2xRGCH in 2022 to finish her Championship. In her only show of 2023, Ophelia was 4th place 4 year old at the 2023 National Show. Ophelia is bred to Pegasus on 8-29-24

2024 HERDSIRES

1. Alder*Rose Sly **Palermo** AS2225878
DNA* Born 3-9-22

DD: SG Pindell's CPS Florence VG88

Corato picture courtesy of Alder*Rose Dairy Goats

Dam: GCH God's Grace COI Corato EX91

I first noticed Corato on Livestream at the 2019 National Show, where she was 3rd/3rd udder 2 year old. I did a little research and realized she was the full sister to COI Italy, who had caught my eye at the 2015 National Show. Corato was 2nd/1st udder Aged doe at the 2023 National Show. Corato knows production as well, with a recent lactation of 5-11 298d 3860M 3.7% 141BF 2.8% 108P. Though mostly an outcross to our current genetics, Corato had the type I wanted and also has a "Pleasant Grove" udder. Palermo's sire, Sly Like a Fox, wasn't a heavily used buck, but has lots of well-known maternal brothers and sisters. Sly's sire, Scorpion King, has worked well with our genetics, being 5-10 generations behind a lot of our does. I'm impressed with the style and consistency of the first Palermo kids and now that we've seen the udders on several fresh daughters in 2024, Palermo will be used extensively for the next few years. His daughters were 2nd and 5th place milking yearlings at the 2024 National Show.

SD: SGCH Just-A-Hobby Perfect Dream EX91

DS: *B Ranea Pepe The Younger
D: SGCH Vineyard View Pepe HumuHumu EX92
DD: SGCH Vineyard View Foxy Vana EX92

Vineyard View NSD Pegasus

Pegasus spent a couple weeks here on lease. We love his pedigree! Being a Dace son, he ties in nicely with the Talache's genetics we have used with success, as well as Moscow Mule (Mo'Effective grandson). We've been fans of Pegasus' dam since we placed 2nd to her in the milking yearling class at the 2018 National Show. When the opportunity arose to use her so sired by Dace, we couldn't refuse. We expect to Pegasus to add length of body, dairy strength, and length of fore udder while enhancing the overall quality udder attachments already present.

3. Pleasant Grove Eryx **Ghosts** AS2326362
DNA Born 2-14-15

SS: ++*B SG Vineyard View Tiber

DS: +*B GCH Noble Springs Moscow Mule
D: CH Pleasant Grove NSMM Gondola EX92
DD: Pleasant Grove Game Gobble

Dam: Pleasant Grove NSMM Gondola EX92

Ghosts is the littermate brother to our milking yearling, Goodwill. Combining the proven production and type of Eryx with the strength and outstanding udder of Gondola was an easy choice to keep a herdsire. We have several Ghosts daughters that we'll be freshening in 2025. Those daughters are very uniform kids, with strength and smoothness of front end, width throughout, correct leg set and level top lines. Excited to see udders in the spring!

Ghosts is Alpha S1 Casein E/F. Semen available: \$40/straw
